TIMELY UPDATES *for the* LONG TERM CARE PROFESSION

A Focus on Reimbursement, Regulation & Responsibility

Program Description

In the long term care profession, it is imperative that you stay abreast of the many changes that impact your operations. This seminar will address timely topics of current interest.

Workforce issues continue to be a priority in long term care. Retention of your staff not only ensures continuity of care, but it reduces the high cost of turnover. By understanding the culture and mindset of those who comprise your workforce, you will be able to more effectively manage your staff for successful employment. Compliance issues relating to scheduling and payroll have implications relating to direct care staff that will be addressed.

Reimbursement and regulation are areas that require constant monitoring. Medicaid reimbursement, the restructuring of the Focus on Excellence program, Life Safety Code, and the timeline for implementation of the QIS Survey program will be highlighted to update providers on the latest information on these critical topics.

The geriatric model of rehabilitation will be covered to address how this model can affect clinical decisions in order to provide the highest quality of life for your residents.

These Timely Topics will educate providers on important changes affecting long term care administration.

Faculty

Nancy Kymes, Tulsa Technology Center
Cultural Differences in Your Workforce

Jodie Geske, U.S. Department of Labor, Wage and Hour Division
Fair Labor Standards Act - A Focus on Direct Care Staff
